- 5. At the present time, the shippard is dedicated to the production of S-22 "Minolovac" mine sweepers, J-40 submarine chasers (Camci), S-61 and R-10 "Kocari" tugs.
 - a. The S-22 "Minolovac" mine sweepers are the principal objects of construction. They are small units, about thirty meters in length, and have two motors, each one of 400 HP. These motors are capable of a speed of 15 to 20 knots. Each mine sweeper will have four watertight bulkheads and will be armed with a heavy machine gum aft and a 75 mm. small cannon in the bows. The proposed crew of each mine sweeper will comprise about 30 men.
